2018-2019 GSRP Partner Application

Please answer the following questions:

1. Please describe the length of time your center has been in operation, the types of programs you offer and the ages of children you currently serve.
2. Describe the size of your total budget and your current funding sources (i.e., tuition, state subsidies, etc.).
3. Tell us about your program quality and your efforts towards continual improvement.
4. What is your program's philosophy of early childhood education?
5. What are the experience and educational requirements for the Director, Teachers and Teaching Assistants at your center? Please attach transcripts and certificates for all staff that would be working in GSRP classrooms.
6. Have you completed the self-study for the Great Start To Quality that is available at Great Start Connect? If yes, what level is your program? See:

<http://greatstartforkids.org/content/great-start-quality>
7. Are you taking steps to improve your program quality rating? If yes, please describe.
8. Describe how your center handles challenging behaviors? Do you exclude, or suspend children? Do you connect with community resources to help support them? What do you use for classroom management and conflict resolution?
9. Describe the interventions you provide to children with developmental concerns.

10. What curriculum do you currently have in place?
11. What screening tools do you use?
12. What child assessment(s) do you use?
13. Please describe your current plan for home visits, parent teacher conferences, and parent engagement. How would this be handled in a GSRP classroom?
14. What rating (if any) does your center currently have on the Preschool Quality Assessment (PQA)?
15. What is your plan for recruiting and enrolling eligible children in GSRP?
16. Have you ever had an action plan for improvement after a licensing visit?
17. After reviewing the GSRP requirements for implementation, what questions do you still have about your center's ability to fulfill these obligations? What potential barriers do you foresee in initial implementation?
18. What are the three main reasons your center is best prepared to implement a GSRP classroom as part of your program?
